

Department Policy & Procedure

Subject: Park Classification System	Number 060-P 5.11.1
	Effective December 1, 2009
	Supersedes
Approved: 	Department: Parks & Recreation
Page 1 of 11	

1.0 PURPOSE STATEMENT

Seattle Parks and Recreation recognizes the unique nature of each property it owns and is responsible for. The size of each property, its setting within the surrounding neighborhood, the amenities it provides to park visitors, its accessibility to the public, its soil, hydrology, vegetation, and habitat combine to make each property a unique asset. Understanding the uniqueness of each property, there is also a recognized benefit to categorizing park owned properties based on their similarities across a number of characteristics. The purpose of this policy and procedure is to establish a method for classifying the parks in Seattle Parks and Recreation. The classifications are driven by park use, purpose and size. This classification system serves the following purposes:

- These classifications will provide a general guideline for future development options. The combination of descriptors for each park type represents what has generally been successful on a certain sized plot of land located in a certain type of physical environment. These guidelines can help to set community expectations for a given site.
- These classifications may serve as a basis for policies around appropriate programming and uses in different park types.
- These classifications may inform functional planting design standards and other design standards.

This classification scheme is not intended to serve as an inventory of individual assets (e.g. total acres of natural area or total number of athletic fields) because different combinations of the same assets appear in each park type, nor is it intended to be a naming policy. Lastly, for each park type, the list of desired or optional assets or programming opportunities is not intended to be inclusive of all potential assets or programs.

2.0 ORGANIZATIONS AFFECTED

2.1 Department of Parks and Recreation

3.0 POLICY

Seattle Parks and Recreation adopts the following park classifications as defined in Section 4.0 as well as the Parks Classification Assignments List dated November 5, 2009:

1. Triangles/Circles/Squares
2. Pocket Park
3. Downtown Park
4. Neighborhood Park
5. Community Park
6. Recreation Area
7. Natural Area/Greenbelt
8. Boulevards/Green Streets/Trails
9. Special-Use Park

4.0 DEFINITIONS

4.1	TRIANGLES/CIRCLES/ SQUARES	These small sites are typically composed of traffic islands or leftover pieces of land. They are often dedicated to Parks in the original plat rather than purchased for use.
Physical		
Size	Generally under 10,000 square feet (0.25 acres)	
Setting	Single Family Residential, Residential Urban Villages, Hub Urban Villages, Urban Center Villages, Downtown Generally constructed on unused land between roads	
Contributes to planning area	No	
Usable Open Space requirement		
Built environment		
Percent developed	100%	
Assets (desired)	None	
Assets (optional)	Benches Lighting for safety	Public Art
Parking	Street, none	
Natural Environment		
Natural Area	No	
Environmental Benefits	Possible green stormwater infrastructure	
Programs		
Programming (desired)	None	
Programming (optional)	None	
Geographic range of users	People in the immediate vicinity (pedestrians, cyclists, drivers)	

4.2 POCKET PARK	These are typically smaller developed sites that have been acquired to serve the immediate neighborhood as a small multi-purpose park. These parks are generally not large enough for significant programming or activity. They may incorporate utility infrastructure or a viewpoint.	
Physical		
Size	Generally between 2,500 sq. ft. and 10,000 sq. ft. (0.25 acres) – this refers primarily to the usable area of the park	
Setting	Single Family Residential, Residential Urban Villages, Hub Urban Villages Generally surrounded by residences, small commercial, non-arterial streets	
Contributes to planning area Usable Open Space requirement	No, unless it exceeds 0.25 acres	
Built environment		
Percent developed	70-100%	
Assets (desired)	Benches Improved paths	Plaza or grassy area for informal activity (no sports field)
Assets (optional)	Designed Landscape Lighting for safety (rare) Picnic table	Play area Public art Viewpoint
Parking	Street	
Natural Environment		
Natural Area	None	
Environmental Benefits	Green stormwater infrastructure, native plants	
Programs		
Programming (desired)	None	
Programming (optional)	Small community gatherings	
Geographic range of users	Immediate neighborhood – less than ¼ mile in distance	

4.3 DOWNTOWN PARK	<p>These are typically smaller developed sites located in Seattle's Center City and other neighborhood centers. These areas provide a landscaped respite from busy downtown streets and often offer places to sit and space for performers and vendors. The 2006 Seattle Downtown Parks & Public Spaces Task Force report identifies 24 downtown parks in three categories: 1) downtown destination parks, which are "signature parks of interest to the broad community"; 2) downtown neighborhood parks, where "neighborhood involvement in activities and programming...is most appropriate;" and 3) small public spaces or beauty spots, which are "small islands within the urban environment that present opportunities to enhance the city's character and identity, and the public's enjoyment of downtown, but are not large enough for substantial park facilities."</p>	
Physical		
Size	Between 0.1 and 5 acres	
Setting	<p>The 2006 Downtown Parks & Public Spaces Task Force Report defines "downtown" as the area bounded by South Lake Union Park to the north, the International District to the south and Interstate 5 to the east. This document currently reflects those boundaries, although in the future the area defined "downtown" may shift as the city changes</p> <p>Generally surrounded by commercial buildings</p>	
Contributes to planning area Usable Open Space requirement	Only those over 10,000 square feet	
Built environment		
Percent developed	100%	
Assets (desired)	Benches Improved paths Designed landscapes Lighting for safety	Plaza or level grassy area for informal activity (no sports field)
Assets (optional)	Picnic tables Play area	Public art Stage Off-leash Area
Parking	Street, none	
Natural Environment		
Natural Area	None	
Environmental Benefits	Possible green stormwater infrastructure, native plants	
Programs		
Programming (desired)	None	
Programming (optional)	Buskers, food vendors (carts), small concerts, special events	
Geographic range of users	Immediate business community, downtown visitors and residents, tourists	

4.4	NEIGHBORHOOD PARK	Neighborhood parks are larger than pocket parks and serve the surrounding neighborhood for multiple uses. Typical park development may include play areas, small fields, benches, picnic tables, and improved paths.	
Physical			
Size	Between 0.25 and 9 acres		
Setting	Single Family Residential, Residential Urban Villages, Hub Urban Villages Generally surrounded by residences, small businesses, small or arterial streets		
Contributes to planning area	Yes		
Usable Open Space requirement			
Built environment			
Percent developed	30-100%		
Assets (desired)	Benches Designed landscape Improved paths	Level grassy area for informal activity Picnic tables Play area	
Assets (optional)	Basketball court Boat launch Comfort station Garden Lighting for safety Picnic shelter or small shelter house	Public art Sports fields (up to one) Stage Tennis courts Wading pool Viewpoint Off-leash Area	
Parking	Generally just street parking; may have off-street parking		
Natural Environment			
Natural Area	May have natural area, creek, lake		
Environmental Benefits	Green stormwater infrastructure, native plants, habitat (if natural area), CO2 reduction		
Programs			
Programming (desired)	None		
Programming (optional)	Light scheduling for athletic teams, community gatherings, small concerts		
Geographic range of users	Surrounding neighborhood – between ¼ and ½ mile		

4.5 COMMUNITY PARK	A community park meets the recreational needs of several neighborhoods and may also preserve unique landscapes and open spaces. These parks serve multiple uses and provide recreational facilities and accommodate group activities not provided in neighborhood parks. Community park sites should be accessible by arterial and/or collector streets.	
Physical		
Size	Between 5 and 60 acres	
Setting	Single Family Residential, Residential Urban Villages, Hub Urban Villages Should be next to an arterial, institution, or natural area rather than surrounded by homes on all sides	
Contributes to planning area Usable Open Space requirement	Yes	
Built environment		
Percent developed	25-100%	
Assets (desired)	Basketball court Benches Comfort station Designed landscape Improved paths Level grassy area for informal activity	Lighting for safety Picnic tables and shelters Play area Sports field(s)
Assets (optional)	Boat launch Community Center Concessions Community or specialty garden Lifeguarded beach Lighting for specific facility use Natural Area Off-leash area Public art	Pool Recreation complex (lighted sports fields with designated parking away from residences) Skatepark Stage Tennis courts Wading pool Viewpoint
Parking	Off-street parking	
Natural Environment		
Natural Area	May have natural area, creek, lake	
Environmental Benefits	Green stormwater infrastructure, native plants, habitat (if natural area), CO2 reduction	
Programs		
Programming (desired)	Community gatherings	
Programming (optional)	Scheduled for athletic teams, small concerts, naturalist activities, food vendors (cart)	
Geographic range of users	Several surrounding neighborhoods – between 1/2 and 3 miles; citywide if park contains a recreation complex	

4.6 RECREATION AREA	Recreation areas supplement neighborhood and community parks, serving broader citywide recreation needs. Each of these parks contains various assets, often for active recreation, and is programmed accordingly. Many also have designated natural areas. Restroom facilities and off-street parking are generally provided for users.	
Physical		
Size	Between 20 and 500 acres	
Setting	Single Family Residential, Residential Urban Villages Accessible via public transit and urban trail system and arterial streets Usually next to an arterial, commercial building, other institution, greenspace, or waterfront, rather than surrounded by residences on all sides	
Contributes to planning area	Yes	
Usable Open Space requirement		
Built environment		
Percent developed	20-100%	
Assets (desired)	Benches Comfort station Designed landscape Improved paths Level grassy area for informal activity	Lighting for safety Picnic tables and shelters Play area Stage
Assets (optional)	Administration Building Basketball court Boat launch Community Center Concessions Lifeguarded beach Lighting for specific facility use Off-leash area Natural area Pool	Recreation complex (lighted sports fields with designated parking away from residences) Sports field(s) Skatepark Tennis court Unique garden areas or conservatory Wading pool Viewpoint
Parking	Multiple off-street parking lots to allow for access to different parts of the park	
Natural Environment		
Natural Area	Yes – forest, lake, creek, riparian area	
Environmental Benefits	Green stormwater infrastructure, native plants, habitat, riparian corridor (possible), CO2 reduction	
Programs		
Programming (desired)	Community gatherings	
Programming (optional)	Scheduled for athletic teams, concerts, special sporting events, large special events, nature programs, fairs	
Geographic range of users	Citywide, regional, tourists	

4.7	NATURAL AREA/ GREENBELT	Natural Areas are park sites established for the protection and stewardship of wildlife, habitat and other natural systems support functions. Some natural areas are accessible for low-impact use. Minimal infrastructure may include access and signage, where it will not adversely impact habitat or natural systems functions. Larger natural areas may have small sections developed to serve a community park function. Large Natural Area/Greenbelts may be divided into subareas based on vegetation, habitat, restoration status, wildlife area designation, recreation use area, etc. in order to better differentiate resource needs and use priorities.
Physical		
Size	Any	
Setting	Where tracts of undeveloped land are available. Natural areas may include, but are not limited to, forest, meadows, riparian areas, beaches, tidelands and wetlands. Non-accessible natural areas are generally found on steep slopes or in riparian zones or wetlands. Natural areas often serve as a buffer between incompatible land uses. See 1993 Greenspaces Policy (Resolution 28653) for details about natural areas.	
Contributes to planning area Usable Open Space requirement	Only parks with usable open space over 10,000 square feet	
Built environment		
Percent developed	Limited to infrastructure for support services	
Assets (desired)	None (Parks Design Standard 02900-01 "Site Restoration of Natural Areas" shall apply)	
Assets (optional)	Comfort station (in more heavily used natural areas such as Carkeek and Discovery Park) Environmental Learning Center Picnic tables	Play area Signage Trails (internal and connecting with external urban trails) Viewpoint
Parking	Street parking, off-street parking for natural areas with more amenities	
Natural Environment		
Natural Area	Yes	
Environmental Benefits	Green stormwater infrastructure, native plants, habitat, riparian corridor (if there is a creek or shoreline), erosion control	
Programs		
Programming (desired)	Environmental education	
Programming (optional)	Plant restoration service projects, research	
Geographic range of users	Citywide, regional, tourists	

4.8	BOULEVARDS/GREEN STREETS/TRAILS	Boulevards, green streets and trails are linear parks that typically serve as an aesthetically-pleasing transportation corridor. A boulevard is legally designated in SMC 15.02.046, defined as an extension or expansion of a dedicated street which continues to serve as a right-of-way in addition to being park land. Many of Seattle's boulevards are part of the Olmsted plan. Boulevards and green streets often provide safe pedestrian routes as well as recreation opportunities.	
Physical			
Size	Any		
Setting	Single Family Residential, Residential Urban Villages, Hub Urban Villages Along an arterial road In places with attractive views		
Contributes to planning area Usable Open Space requirement	Those with usable open space over 10,000 square feet		
Built environment			
Percent developed	25-100%		
Assets (desired)	Designed landscape Improved Path	Regular street lighting	
Assets (optional)	Benches Decorative lighting Flat grassy area for informal activity	Play area Public gathering place Viewpoint	
Parking	Street parking, off-street parking		
Natural Environment			
Natural Area	May have shoreline, riparian area		
Environmental Benefits	Green stormwater infrastructure, native plants, riparian area, CO2 reduction		
Programs			
Programming (desired)	None		
Programming (optional)	None		
Geographic range of users	Citywide, all travelers using the street		

4.9 SPECIAL-USE PARKS

This category refers to stand-alone parks that are designed to serve one particular use. Examples of parks that fit into this category include stand-alone golf courses, marinas, boat ramps, and community or specialty gardens. These parks may serve a second or third use (e.g. picnic tables at a marina or walking paths at a golf course), but the primary use is prioritized with regard to design, maintenance and funding decisions.

For each special-use park type, the descriptors will differ depending on industry standards and best practices for the intended activity. For each type of special-use park, a more detailed list of descriptors should be developed by a design expert in that particular field.

Physical	
Size	Whatever size is necessary for the intended use
Setting	Depends on intended use
Contributes to planning area	In some cases
Usable Open Space requirement	
Built environment	
Percent developed	70-100%
Assets (desired)	Depends on intended use
Assets (optional)	Depends on intended use
Parking	Depends on intended use
Natural Environment	
Natural Area	None
Environmental benefits	golf courses contribute to CO2 reduction, native plants, habitat, and green stormwater infrastructure; environmental benefits of other special-use parks depends on development
Programs	
Programming (desired)	Depends on intended use
Programming (optional)	Depends on intended use
Geographic range of users	Citywide

5.0 RESPONSIBILITY

- 5.1 The Planning & Development Division (PDD) will be responsible for reviewing the Parks Classification System as a guideline as park development plans are reviewed for proposed improvements or changes in use.**
- 5.2 The Parks Division will be responsible for reviewing the Parks Classification System as new maintenance procedures at a park site are considered.**
- 5.3 As policies related to park programming options in different park types are considered, it will be the responsibility of the Recreation Division to review the Parks Classification System for policy guidance.**

6.0 PROCEDURE

- 6.1 Revisions to the Parks Classification System may be requested, including revisions to park category definitions and changes to the assigned category of a specific park. Requests should be made in writing to the Parks Superintendent.**
- 6.2 The Parks Superintendent may confer with the chair of the Board of Park Commissioners on the revisions and the preferred public review process for requested revisions. The Parks Superintendent shall have final authority on changes to the policy and/or park classification assignments**
