**Next meeting: Tuesday, April 13**

Contact: David Keyes, (206) 386-9759 or [david.keyes@seattle.gov](mailto:david.keyes@seattle.gov)

Note: This special CTTAB retreat is different than the typical CTTAB monthly meeting. It involves meetings with City officials. The purpose of the retreat is to give CTTAB members and City officials the opportunity to discuss issues and CTTAB priorities. The meeting is open to the public, but the limited time available for this meeting does not permit CTTAB's typical public comment period or public participation.

CCTAB will hear public comment on this meeting and other topics at its next regular meeting to be held on April 13, 2009

## **Telecom Commission Seeks Public Input on Google Broadband Proposal**

Submitted by channel\_admin on Fri, 03/05/2010 - 10:59

Imagine being able to quickly upload hour long programs from your home computer and sending them directly to channelAustin for playback!

Google is looking for a place to build a super-fast, gigabit open network that would allow you to do just that. And Austin is on Google's list for consideration. [Follow this link](#) to learn more.

The public is invited to appear before the Austin Community Technology and Telecommunications Commission and speak for 3 minutes about how greater bandwidth speeds would benefit Austin, and how Google would benefit from being in Austin.

The commission especially invites presentations from residents on: how they would use a high-bandwidth Internet connection, creative uses for such a facility, and points to present to Google that recommend Austin as a location for their fiber network trials.

The public hearing will take place on Wednesday, March 10, at 7PM at Austin's City Hall located at 301 W. Second St. Austin, TX 78701
