

The TRANSFORMATIONAL LECTURE SERIES aims to inspire all building industry professionals to embrace their role in creating a sustainable built environment now, as well as ensuring that sustainability becomes integral to all development in the future.

By reminding us why we must act boldly and helping us to imagine a world where sustainability is the baseline, these lectures promise to inspire a revolution!

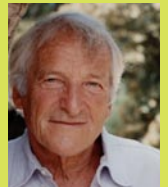

INSPIRE. MOTIVATE. TRANSFORM.

TRANSFORMATIONAL LECTURE SERIES

CHANGE AND RESILIENCE

Sim Van Der Ryn, President, EcoDesign Collaborative

We all understand Gandhi's famous dictum, "Be the change you wish to see." Global climate chaos and its effects on global ecological systems will be with us for a millennium. How will we exist with a change we didn't want to see? The answer lies in resiliency—in our own beings and in everything we conceive and design to support human life and the life of all beings. It means resilient communities, institutions, environments, minds and hearts.

Sim Van der Ryn is a visionary, author, educator, public leader, and internationally distinguished pioneer in ecological design with 40 years of experience at the forefront of integrating ecological principles into the built environment.

**10.22.09 – Seattle, WA – Seattle Central Library, Microsoft Auditorium,
1000 4th Ave.**

Lecture starts at 5:30pm; doors open at 5:00pm.

COST

Cascadia members: Free. Don't forget to bring your Cascadia passport to receive a stamp!
Non-members: \$10
Full-time students: Free
