List of Funded Wildlife Research Grant Projects

Year	Project Name	Amount	Status
1999	Do Introduced Trout Reduce the Genetic Integrity of long-toed Salamanders in High Elevation Lakes	\$51,667	completed
1999	Grizzly Bear Presence and Population Estimate for the North Cascades	\$61,331	completed
2000	Grizzly Bear Presence and Population Estimate for the North Cascades	\$25,000	completed
2000	Species Identification and Genetic Differentiation Among Ranid Frog Populations in the Skagit River Watershed	\$29,642	completed
2000	Pilot Study to Develop a Long-term Landbird Monitoring Program at North Cascades National Park Service Complex	\$20,000	completed
2000	Macroinvertebrate drift in non-fish bearing streams within the North Cascades Ecoregion	\$15,000	completed
2000	Habitat Selection by Lynx in the North Cascades	\$74,555	completed
2001	Avian Distributions and Habitat Relationships Across North Cascades National Park Service Complex	\$44,200	completed
2001	Macroinvertebrate Drift in Headwater Streams of the North Cascades	\$39,052	completed
2003	Grizzly Bear Outreach Project Evaluation	\$49,952	completed
2003	Mountain Goat Habitat Relations in the North Cascades	\$59,137	completed
2003	Potential impact of regulated flows on the life history and ecology of black cottonwood along the Skagit River	\$58,771	completed
2005	Mountain goat sightability surveys	\$32,625	completed
2006	Wolverine distribution and ecology in the north cascades	\$32,270	
2006	Clark's nutcracker habitat use and relative abundance in the Cascade range	\$78,900	completed
2006	Space use and habitat selection by dunlin in the Skagit river delta	\$50,782	completed
2007	Lynx Cycles and Barriers: Evaluating dispersal versus climate change in flatlining populations	\$20,000	completed
2007	Identifying Key Habitats and Spatial Requirements of Mountain Goats in the North Cascades	\$40,000	
2007	Mountain Goat Conservation in the Washington Cascades: a Genetic Approach	\$30,070	
2008	Wolverine Distribution and Ecology in the North Cascades Ecosystem	\$47,950	
2008	Factors Affecting Spotted Owl Persistence in Northwest Washington: A 20 year Retrospective:	\$64,000	completed
2009	Canada Lynx Conservation in the North Cascades: habitat use of GPS marked animals.	\$75,699	
2009	The Cascades Carnivore Connectivity Project: Evaluating Habitat Connectivity for Carnivores in Washington's Cascade Mountains	\$70,000	completed
2009	Pilot Study on factors affecting pika population dynamics in the North Cascades Ecosystem	\$57,920	completed
2010	Cascades Carnivore Connectivity Project: Year 2	\$32,000	
2010	Factors affecting pika population dynamics in the North Cascades National Park Service Complex	\$32,000
