

**Note to Patrick Merriam (crew chief) regarding the volunteer fence construction work party.**

Patrick,

Thank you and your crew for taking down the shrubs on the Greenwood Park north lot.

Your great work made it possible for a group of 24 dedicated volunteers to build a unique natural fence on Sunday. We worked in stretches of calm weather and through a heavy downpour to trim down the branches and build them into a fence. The fence creates a beautiful border and buffer between the neighbors' aggressive dogs and the future community garden.

On behalf of the volunteers and our neighborhood, thanks for making this project a priority and finding resources to support us when the City is in such hard financial times.

Sincerely,

Mike Stringer
