

## Water Jelly N°1

Toddler Bay  
VOR 7010.0002

The soft, laminar spray of the Water Jelly creates a unique texture that little ones love to touch. A cone of water starts small and gently grows out in a cone shape that flows over in a soft, inviting cascade.

Dimensions H/W/L	12-24 / 24-36 / 24-36 in
Pressure	1 – 2 PSI
Flow	10 – 12 GPM
Spray Zone W/L	ø 2 ft

**Material:** Stainless steel, Brass  
**Water Effect:** Laminar cone shape

Scale

Spray Zone W/L

## Fountain Spray

Family Bay  
VOR 7513

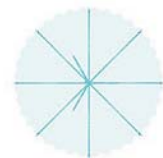

Multiple streams spray out in varying heights from a concentrated center at varying heights, forming an elegant fountain effect. The fountain provides a variety of water experiences from the gentle streams falling down, mist from under the water arcs and higher pressure at the core.

Dimensions H/W/L	24-60 / 24-48 / 24-48 in
Pressure	1 – 4 PSI
Flow	3 – 7 GPM
Spray Zone W/L	ø 12 ft

**Material:** Stainless steel, Brass  
**Water Effect:** Stream sprays

Scale

Spray Zone W/L

## Team Spray N°1

Teen Bay  
VOR 7640

Interactive ground sprays allow Splashpadders to control the water pressure in the Ground Gusher, encouraging team play. Blocking sprays gives more force to the Gusher, causing the multiple streams of water to spray higher. Releasing blocked ground sprays reduces the pressure.

Dimensions HxWxL	24-72 / 64-88 / 98-122 in
Pressure	1 – 10 PSI
Flow	15 – 20 GPM
Spray Zone WxL	10 / 16 ft

**Material:** Stainless steel, Brass, UHMWV  
**Water Effect:** Stream sprays

Scale

Spray Zone WxL

Family Bay  
VOR 0301

Multiple streams spray water out at symmetrical angles forming an elegant fountain effect. The soft frothy water falling down forms a contrast to the more powerful streams spraying up from the Center.

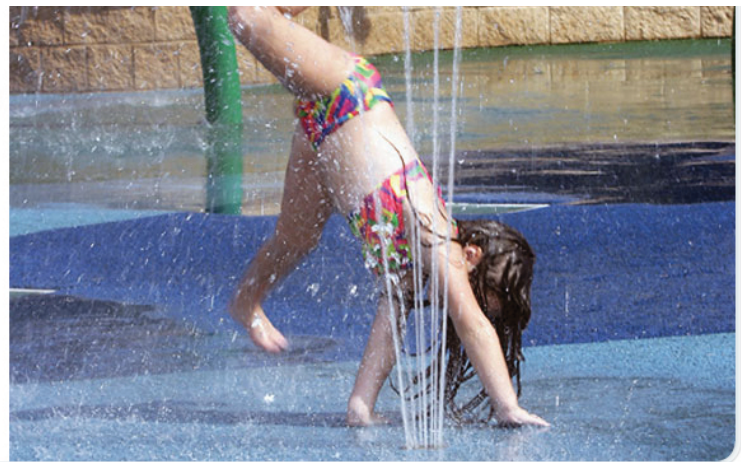

Dimensions HxWxL	24-60/18-40/18-40in
Pressure	5 – 10PSI
Flow	5 – 10GPM
Spray Zone WxL	ø 8 ft

**Material:** Stainless steel, Brass  
**Water Effect:** Stream sprays

Scale

Spray Zone WxL

## Jet Stream

Family Bay  
VOR 7512

A concentrated jet of water sprays up in a sleek Jet Stream, making an impressive show when arranged with other Jet Streams in sequence. Used individually or in groups, the Jet Stream is a wonderful design element.

Dimensions H/W/L	24-72 / 6-12 / 6-12 in
Pressure	5 – 10 PSI
Flow	2 – 3 GPM
Spray Zone W/L	ø 5 ft

Material: Stainless steel, Brass  
Water Effect: Stream sprays

Scale

Spray Zone W/L

## Side Winder

Family Bay  
VOR 7518

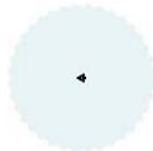

Multiple water jets arranged in a concentrated Center form an impressive fountain. Set at a slight angle with just the right amount of pressure, all the streams arc out in a symmetrical circular pattern.

Dimensions H/W/L	24-72 / 30-72 / 30-72 in
Pressure	5 – 15 PSI
Flow	10 – 20 GPM
Spray Zone W/L	ø 12 ft

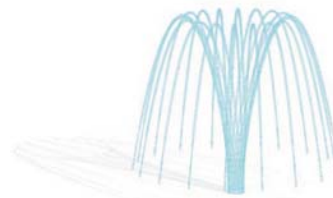

Material: Stainless steel, Brass  
Water Effect: Stream sprays

Scale

Spray Zone W/L

## Split Stream

Family Bay  
VOR 7516

Two heavy streams of water spray out in low-reaching water arches. A wonderful design element, the Split Stream provides an interesting contrast to delicate sprays.

Dimensions HWWL 24-72 / 36-60 / 48-96 in  
Pressure 5 – 10 PSI  
Flow 5 – 10 GPM  
Spray Zone WWL 5 / 10 ft

Material: Stainless steel, Brass  
Water Effect: Stream sprays

Scale

Spray Zone WWL

## Bollard Activator N°1

VOR 0600

Activators sequence play events to start at different times for an impressive water show that also saves water when an area is not in use. This impact-resistant colourful Bollard Activator includes a large touch-activated sensor cap.

Dimensions HWWL 39 / 7 / 7 in  
Pressure -  
Flow -  
Spray Zone WWL -

Material: Stainless steel, HDPE
